Experience

Amazon, Inc. / Software Development Engineer (SDE 1)
SEPTEMBER 2022 - PRESENT, LEHI, UTAH

Developed translation software for both internal and external use: optimized databases and manually migrated large-scale data between incompatible database engines, developed new customer-facing features, optimized our pricing model, communicated to assist customers and to prioritize new features, and wrote new tools to improve developer efficiency.

Education

University of Colorado / Bachelor of Science in Computer Science
AUGUST 2020 - JULY 2022, BOULDER, COLORADO

Graduated two years early through a combination of AP credits, concurrent enrollment, and summer classes.
